## PROFESSIONAL SUMMARY

Data Analyst with 2 years of professional experience and 6 months of experience as an Operational Analyst Intern at Credit Mantri Finserv Private Limited. Experienced in analyzing customer and operational data, automating recurring reports, developing customer prioritization models, and translating data into actionable business insights. Skilled in Python, SQL, Advanced Excel, Power BI, DAX, Pandas, and Matplotlib, with hands-on experience in data cleaning, reporting automation, customer segmentation, and performance analysis.

## PROFESSIONAL EXPERIENCE

### Data Analyst

Credit Mantri Finserv Private Limited | 2 Years

- Analyzed customer, campaign, repayment, and operational data to generate actionable insights for collection and business teams.
- Prepared analytical reports and dashboards to track call volumes, customer responses, campaign performance, case allocation, and recovery outcomes.
- Automated recurring feedback and reporting workflows, reducing repetitive manual effort and improving reporting turnaround time.
- Performed data cleaning, transformation, exploratory data analysis (EDA), segmentation, and statistical analysis to support operational decision-making.
- Developed customer prioritization and propensity-based scoring approaches to help collection teams focus recovery efforts on high-priority customer segments.

### Operational Analyst Intern

Credit Mantri Finserv Private Limited | 6 Months

- Supported daily operational reporting, data validation, case-level analysis, and performance tracking.
- Prepared recurring operational reports and analyzed metrics to identify trends, exceptions, and process-improvement opportunities.
- Worked with business and operations data to improve reporting accuracy, consistency, and turn-around time.

## TECHNICAL SKILLS

| | |
|---|---|
| **Programming** | Python |
| **Data Visualization** | Power BI, DAX, Matplotlib |
| **Data Analysis** | Pandas, Advanced Excel |
| **Database** | SQL |
| **Data & Analytics** | Data Cleaning, Customer Segmentation, Reporting Automation, Performance Analysis |

## PROJECT — TRIALS FEEDBACK AUTOMATION

Developed and implemented an automated lender-feedback reporting workflow for a debt collection intermediary that works with banks and customers for credit-card loan recovery.

- Automated customized daily, weekly, and monthly feedback reports covering call volumes, customer responses, campaign outcomes, and allocated-case performance.
- Replaced a manual process that required a dedicated employee to spend approximately half a day every day compiling and processing feedback data.
- Completely automated the workflow using R, reducing a reporting process that took hours to a cycle that generates the required files in approximately 5–10 minutes.
- Improved reporting turnaround time, reduced repetitive manual work, and enabled consistent lender-specific feedback generation.

## PROJECT — CUSTOMER PRIORITIZATION & PROPENSITY MODELING

Designed and implemented a data-driven customer segmentation strategy to optimize debt-recovery prioritization using two complementary dimensions: Ability to Pay and Behavioral Intent.

- Ability Score: Extracted and analyzed Equifax credit data to evaluate financial capacity using salary, active negative accounts, historical and recent account closures, maximum payment capacity, and age.
- Behavior Score: Tracked and quantified customer engagement across SMS, IVR, Email, WhatsApp, and Telecalling to assess current responsiveness and willingness to pay.
- Strategic Segmentation: Cross-referenced Ability and Behavior scores to create a priority matrix that categorized customers into High, Medium, and Low priority tiers.
- Collection Impact: Directed targeted recovery efforts toward high-priority segments, contributing to improved successful payment collections and overall revenue yield.

## EDUCATION

| Degree | Institution | University / Board | Year | Score |
|---|---|---|---|---|
| BCA | Agurchand Manmull Jain College | University of Madras | 2023 | 82% |
| HSC | Vellayan Chettiyar Higher Secondary School | State Board | 2020 | 71% |
| SSLC | Vellayan Chettiyar Higher Secondary School | State Board | 2018 | 83% |

## COURSES

- Completed Python course – Upgrad.
- Completed SQL course – Learntube Online.

## ACHIEVEMENTS

- Won Third Prize in District Level Quiz Competition (2019).
- Winner – Murugappa Inter-School Athletic Meet Individual Trophy.

## CORE STRENGTHS

Analytical Thinking • Problem Solving • Data-Driven Decision Making • Process Improvement • Attention to Detail • Adaptability • Time Management

## LANGUAGES

English • Tamil
